What are RFID-blocking wallets, bags and accessories?

They are designed to help insulate you from a very particular brand of electronic pickpocketing, called RFID (Radio Frequency Identification) skimming/digital theft. The concern is that most credit cards, passports, some car keys and driver's licenses now come with embedded radio frequency identification chips. Reduce the risks of identity theft and your cards being shut down in the least opportune moments. Kensington's carries the latest and best products from sleeves to whole bags.

What is a 311 bag? Liquids, gels and aerosols packed in carry-on must follow the 3-1-1 liquids rule:

- 3.4 ounces or less per container (100 milliliters)
- 1 quart size, clear, plastic, zip top bag (all liquids must fit in bag)
- 1 bag per passenger

Pack in front pocket of your carry-on for accessibility.

Some Travel Tips

Make a photocopy of your Passport and hide it just in case you need to obtain a replacement, it will be considerably easier if you have a photocopy to prove your identity.

Screenshot Your Boarding Passes-Email/text yourself your confirmed travel itinerary and scanned copy of passports.

Talk with your mobile carrier for coverage options in countries you'll be visiting. Utilize WiFi spots to connect usually for free.

Bypass Long Lines-Sign up for TSA Pre✓ and Global Entry. These programs allow you to skip the long lines and hassles. Many card companies credit you the fee when you pay with that card. Enroll for Global Entry through U.S. Customs and Border Protection www.cbp.gov

Before you book, read multiple reviews of properties and destinations so you are prepared.

Passengers with a disability or medical condition may call ahead to the TSA Cares toll free helpline at (855) 787-2227.

Utilize the Eagle Creek Pack it system offered at Kensington's

- Pack more in smaller space
- TSA won't mess it up
- Get through security faster
- Place in hotel drawer to keep clean
- Organize by color
- Faster packing
- Making your travel experience easier and stress free

Snap a pic of your checked bag, easier to describe if it gets lost.

Tape a card with your name and contact information on your electronics.

Once an hour get up and walk around. Humans weren't meant to stay seated for so long.

Download airline apps to track your luggage, checkin, book and manage your trip(s).

Shop Kensington's before every trip to ensure you have all that you need for a safe and comfortable trip!
